3 June 1969

Dear Mr. Rochette,

Unfortunately the delivery of your letter of 14 May about the Coin Week exhibits was delayed by the postal strike here and, although we cabled immediately to the FAO Washington Office, it was impracticable to find a representative at such short notice.

Also, as you will have seen by copyletter to Mr. Gavell of 15 May, we had hoped to associate Secretary Hardin with the ANA Convention in August, but find that he has no interest in this field. However, I would appreciate receiving a Convention schedule as soon as possible, in order that FAO itself may plan appropriate participation.

Meanwhile I should like to say how encouraged we have been by the press reports on Coin Week and the attention this has drawn to the world food problem.

With kind regards,

Yours sincerely,

Raymond Lloyd
